

Year 3 - Holiday Project

Our first geography topic of year 3 will focus on the question:

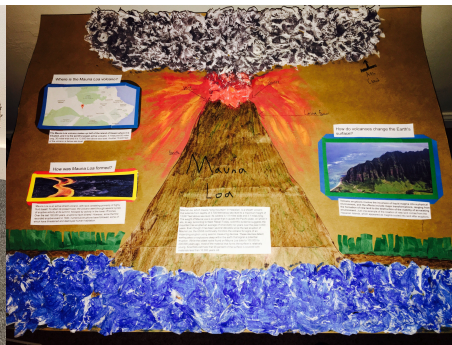

"What makes the earth so angry?"

We will find out about the layers of the earth, what causes earthquakes and how volcanoes are formed.

Volcanoes

Complete one of the activities below and bring it to school after the holidays for us to put on display!

- Create a 3D model of a volcano.
- Research the layers of the earth and draw a diagram or create a 3D model.
- Create a fact file on one of the famous volcanoes located around the world.

Don't forget to ask your adult at home to support you.

We look forward to seeing your lovely work in January.
Enjoy your holidays!
