Farnham School News

Nursery

It's all about the number 4 in nursery this week.

We have been feeding the bears 4 snacks and showing 4 in a 5 frame.

Reception

In literacy, we read a new story called Surprising Sharks. We found a shark tooth in the classroom and it was from Dave the diver. He wanted us to know more facts about sharks before he went on his next adventure. We learnt lots of new information and sent him a voice note.

In maths, we have been learning about height.

We made a tall tower using the blocks and stood in a line in height order.

We talked about the words tall and short and created actions to help us remember them.

Year 1

In science we have been learning all about what a plant is. We carried out an investigation to see 'Does a bean need water to grow?'. We will observe our beans to see what happens.

In English we have been learning how to use question marks to ask and answer questions about different animals.

In maths we have been practicing counting using tens and ones and using the tens and ones to make different numbers.

Year 2

Year 2 had a fantastic time visiting Bolling Hall this week! They did some artwork relating to the Great Fire of London. They also took part in a drama workshop thinking about what life would be like if they lived in Bolling Hall.

In maths we have been learning how to divide by 2 and 10!

In English we have learnt about statements, questions, commands and exclamations this week!

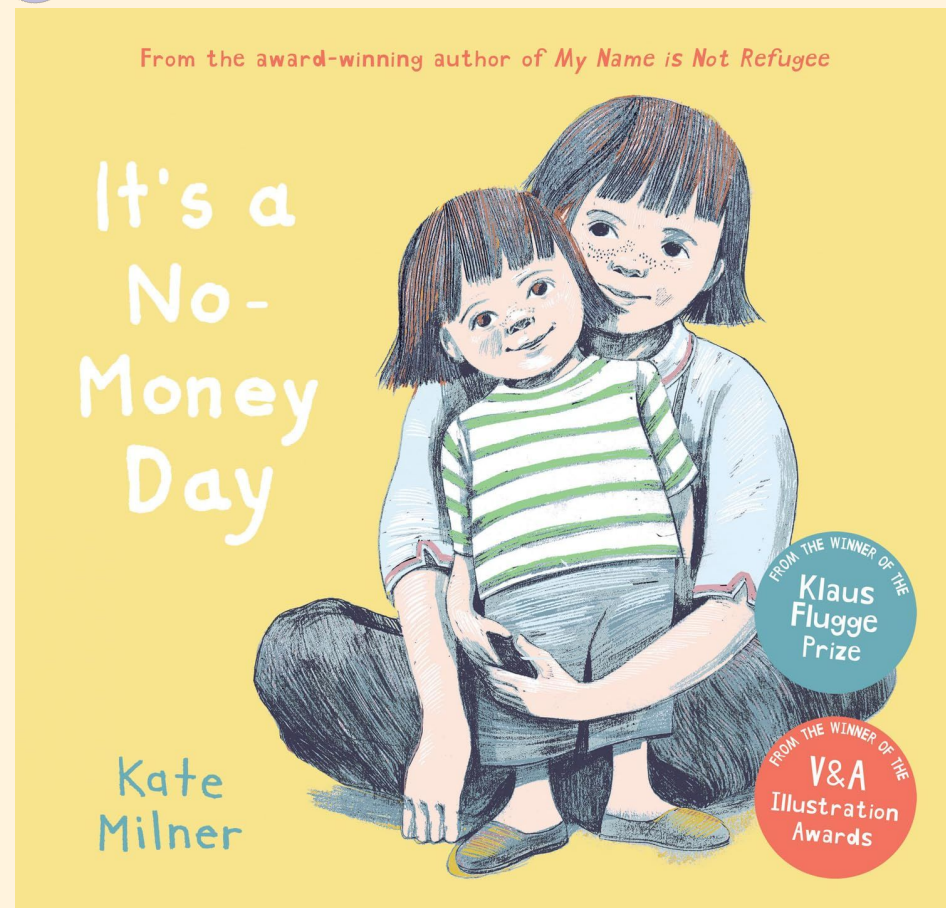

Year 3

In writing, we have recapped our knowledge of capital letters, full stops and nouns. We know a proper noun is the name of a specific person, place or object and that it needs a capital letter when we write it!

In maths, we have started learning about length. We have discussed and explored which apparatus we would use to measure different items found in our classroom in metres, centimeters and millimetres.

In PSHEE, we started our new story 'It's a No Money Day' by Kate Milner. We were very inquisitive and had a lovely discussion about money, where it comes from, budgets and why we need it. We also explored the difference between 'wants' and 'needs'.

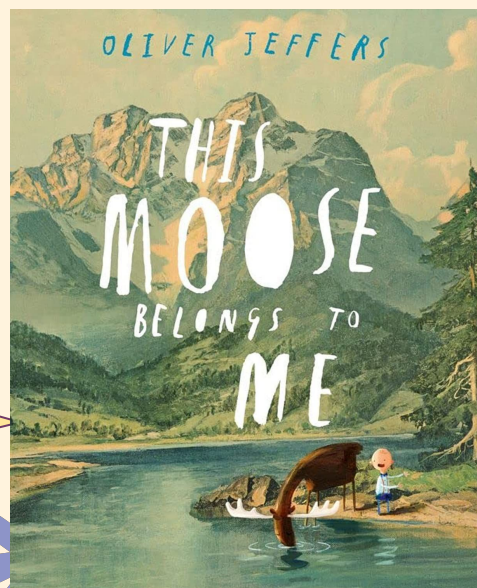

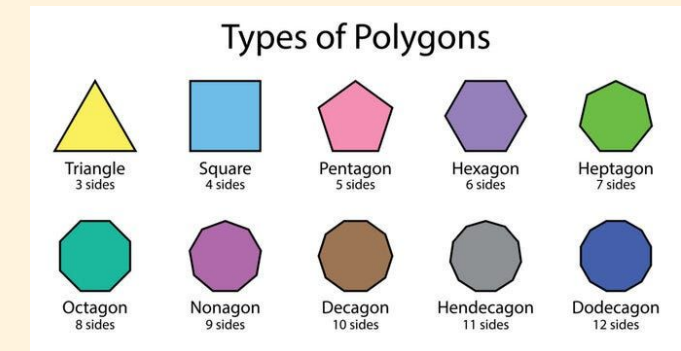

Year 4

In writing, we have began our new unit on 'Hocus Pocus', we have looked at the role of sorcerer, wizard and witch and how they are similar and different. We looked at some of the spells they cast and began to think of our own.

In maths, we have continued our work on perimeter. We looked at the perimeter of polygons and learnt about regular and irregular polygons.

In PSHEE, we started our new story 'The Moose Belongs to Me' by Oliver Jeffers. We looked at the value of friendships and the importance of them. We now know some tricks on how to deal with conflict.

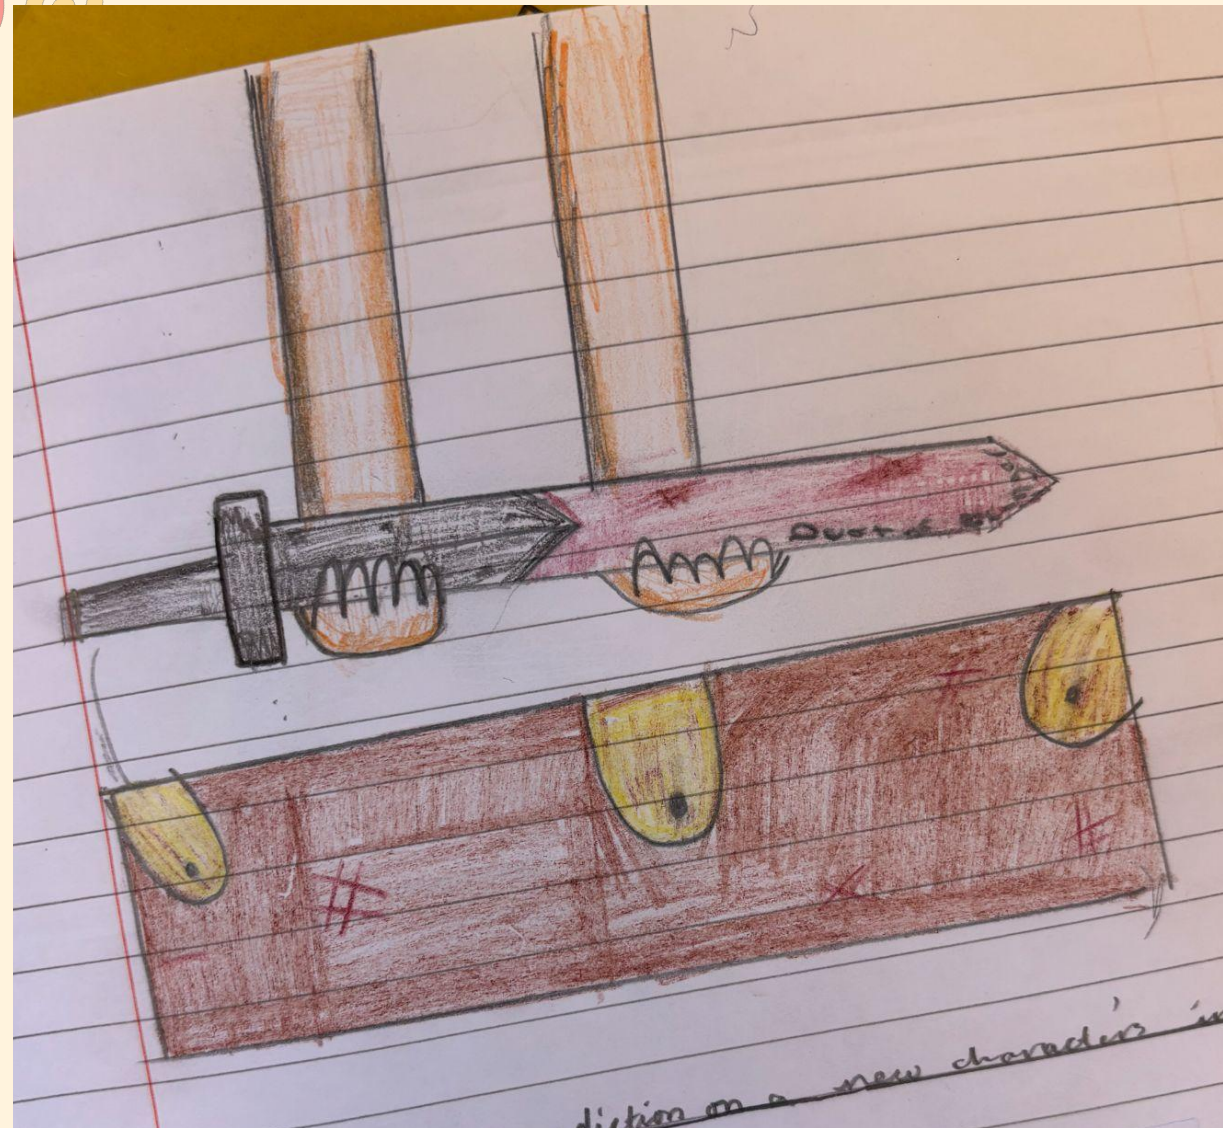

Year 5

In reading, year 5 have produced some wonderful illustrations of Father's sword from 'Viking Boy' and are going to share these with the author Tony Bradman!

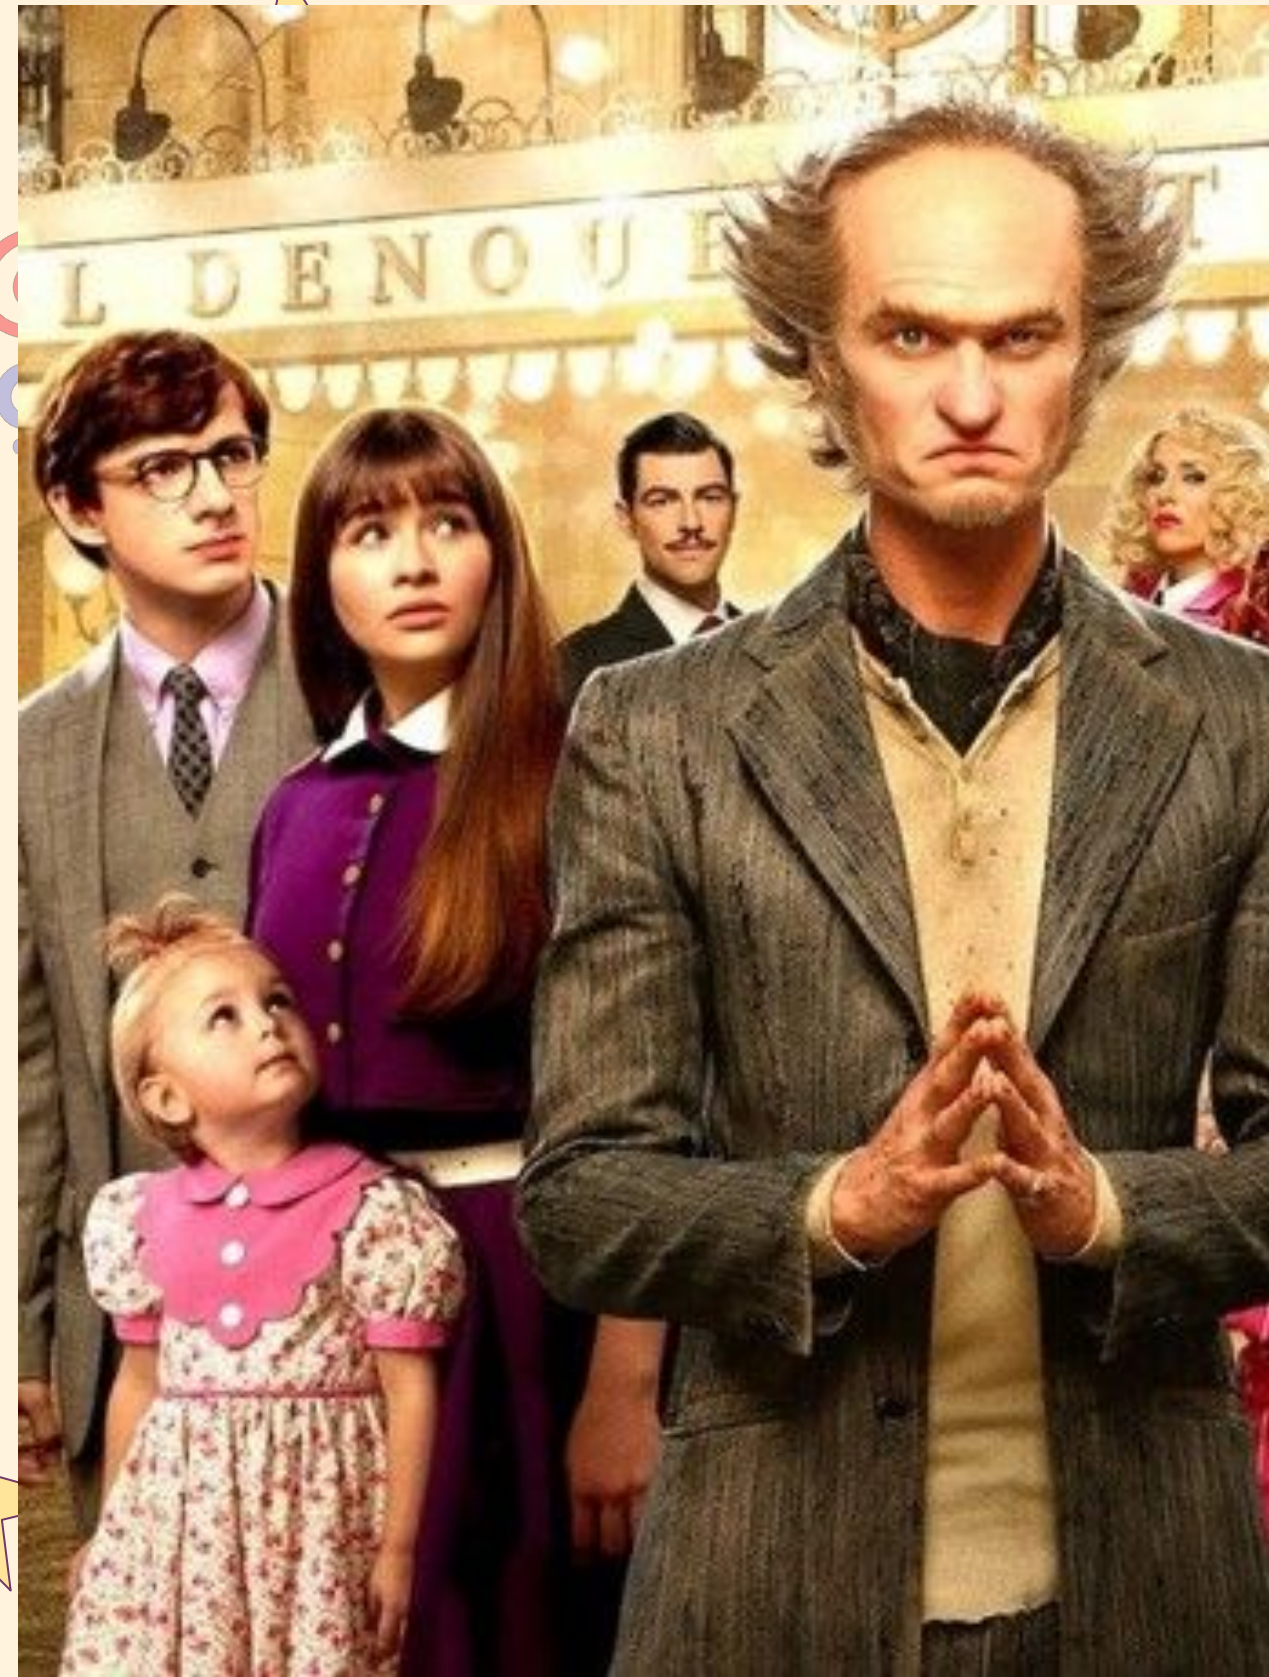

In maths we have consolidated our understanding of fractions and decimals up to thousandths.

In writing, we have really enjoyed creating our own narratives using sounds and music.

During our science we discovered what a mixture was and made some different ones

Year 6

In English, year 6 have loved starting their new writing unit based around, 'A Series of Unfortunate Events.' We have started to gather lots of ideas for our character descriptions of the Baudelaire children.

In maths, we have been working exceptionally hard to find percentages of different amounts and we have applied this to some tricky reasoning problems!

In reading, we have started to practise our retrieval and vocabulary skills ready for our SATs!

Thank you
