Farnham School News

Nursery

We are all thinking about keeping healthy. We have been looking at healthy and unhealthy foods and how to keep our teeth nice and clean, by brushing them twice a day.

Reception

In understanding the world, we used the litter pickers and collected rubbish that had blown into the playground.

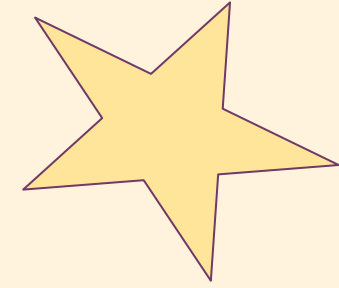

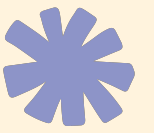

In maths, we have been learning about time.

We looked at baby pictures from the past and talked about our daily routines.

In literacy, we have learnt about the importance of keeping the ocean clean and made posters to tell everyone to protect sea creatures.

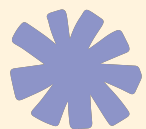

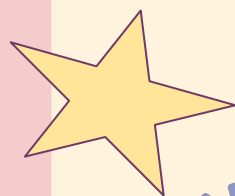

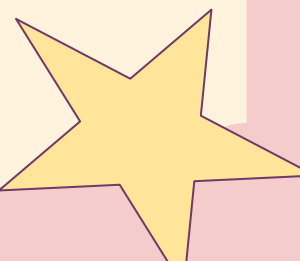

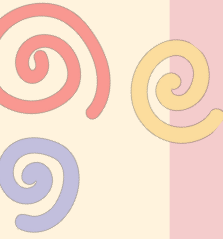

Year 1

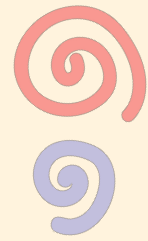

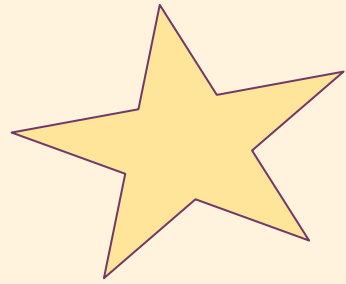

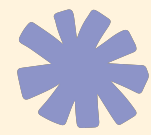

Year 1 have been making the most of the slightly better weather and have spent time in the nature garden looking for signs of spring.

In English, we have been writing fact files about sloths. We will share these with other classes when they are finished.

In maths, we have been exploring numbers up to 50. We have been looking to see how many tens and ones are in each number and placing them on a numberline.

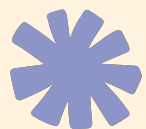

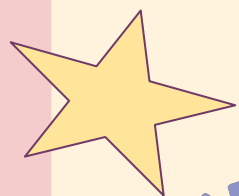

Year 2

We have had lots of fun recently. Last Friday our grown-ups joined us for a workshop measuring the playground and each other.

Yesterday, we designed products made from recyclable materials. Reusing is even better than recycling because it doesn't use any energy!

In maths we are about to begin a new unit on measure. In English we are writing a diary entry from the perspective of a maid who lived in Bolling Hall.

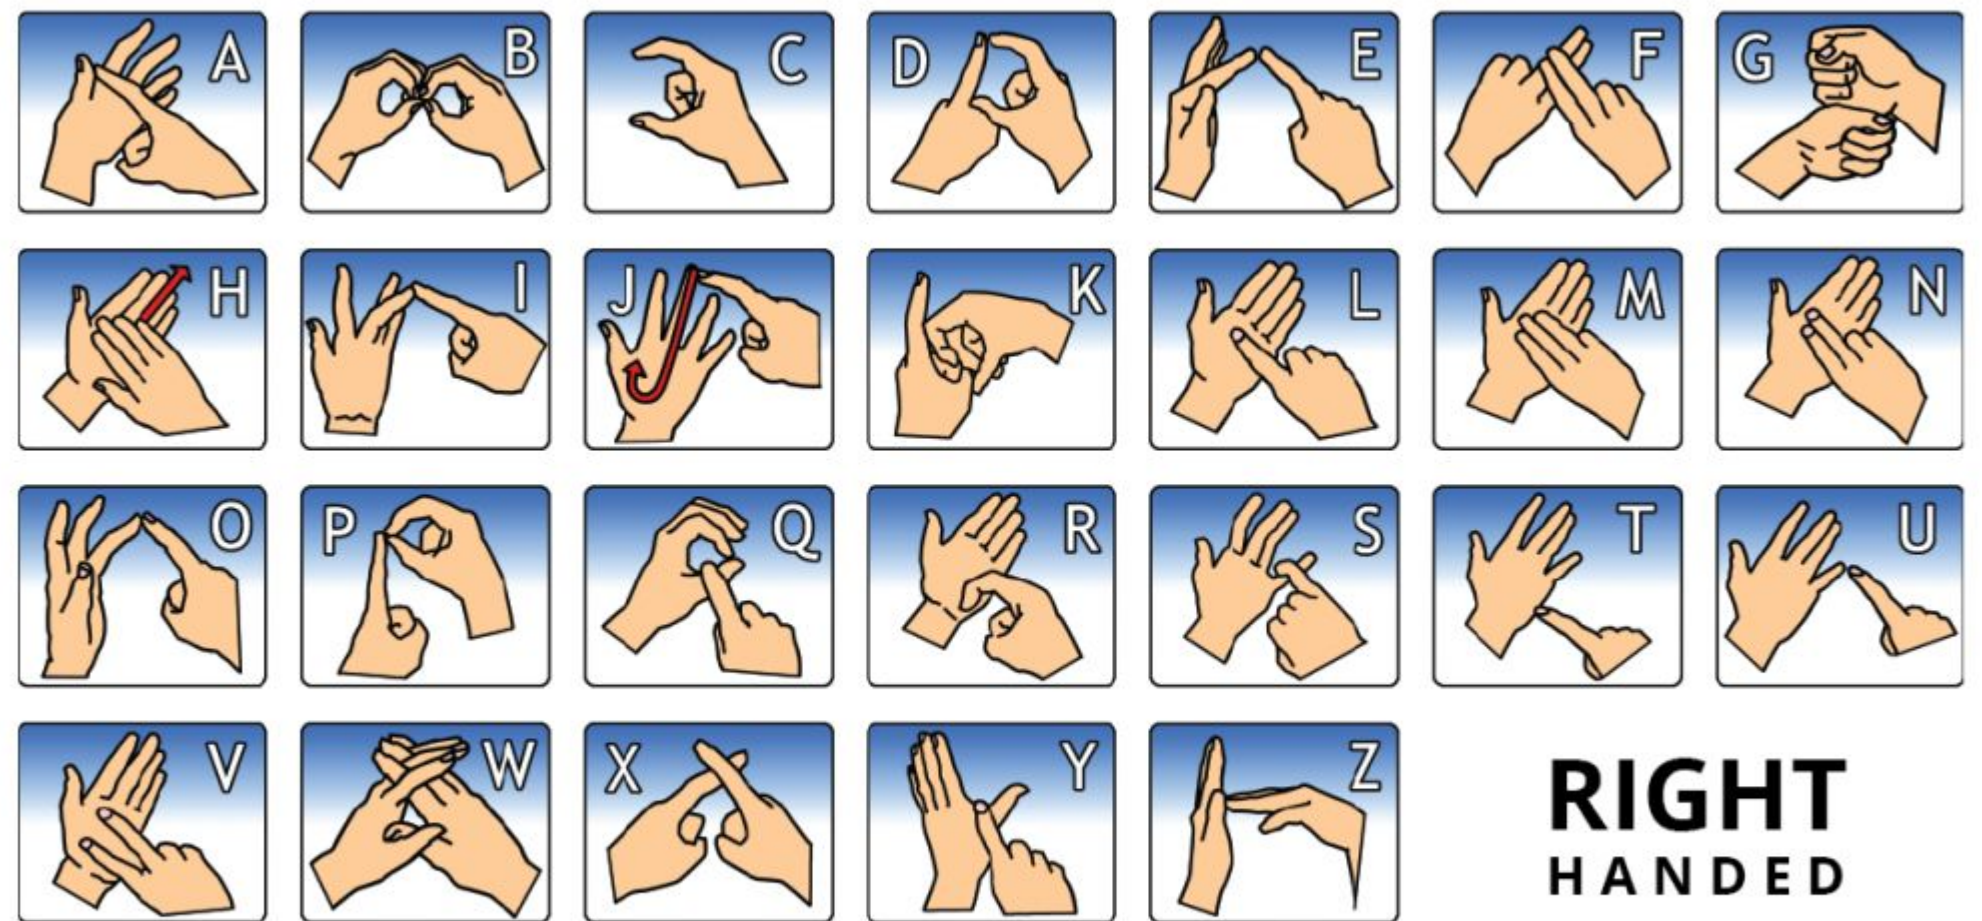

Year 3

In reading, we have watched videos about circuses and predicted what might happen to our main character Leon, steps inside the magician's box.

In writing, we have practising and performing a bedtime story using British Sign Language. We all know how to spell our names now!

In maths, we used different techniques to measure the playground and our classrooms.

BRITISH SIGN LANGUAGE - FINGERSPELLING

AT WWW.BRITISH-SIGN.CO.UK

Year 4

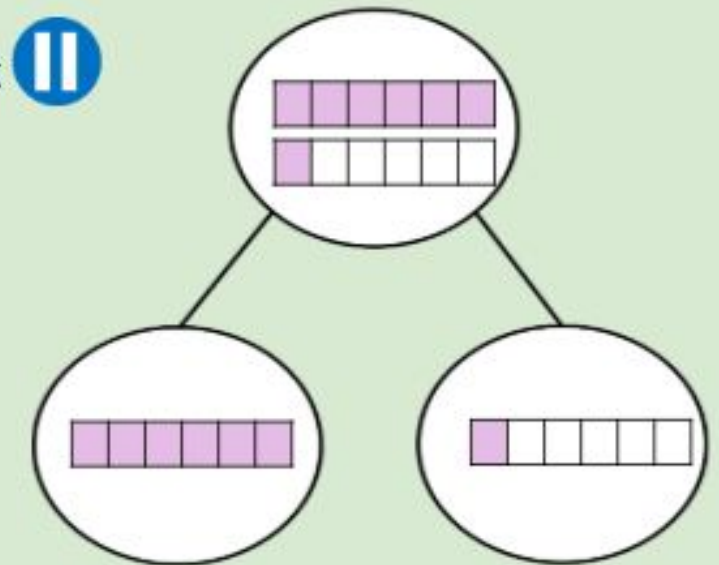

In English, we have continued to plan our poem for 'Hocus Pocus'.

In maths, we have started looking at our new unit of 'fractions' and learning how to partition them.

In geography we have been looking at maps and thinking of how we would plan journeys using maps and grid referencing.

Have a think 

$1\frac{1}{6}$ can be partitioned into 1 whole and $\frac{1}{6}$

Year 5

In reading, year 5 have looked at the events in Viking Boy and predicted what father might do next.

In maths we have looked at percentages and how these link to our fractions and decimals.

In writing, we have started to plan our own campfire stories and looked at techniques to hook our audience in.

During our science we discovered what a sieve is and how it can be used to separate mixtures.

Year 6

This week, year 6 have worked exceptionally hard for the mocks SATs. We have been using our free time to revise key skills and prepare ourselves for our tests. We are all very tired now but Miss Earp and Mr Clegg are so very proud of how hard we have worked and the progress we have made. Well done, year 6!

Thank you
