Reception

This week, we began our literacy learning with a mysterious discovery... someone had tipped porridge all over the classroom! We became detectives and worked together to investigate who could have done it. After lots of careful thinking and clues, we discovered that it was Goldilocks! Our new story is Goldilocks and the Three Bears, and we created our own wanted posters to help find her.

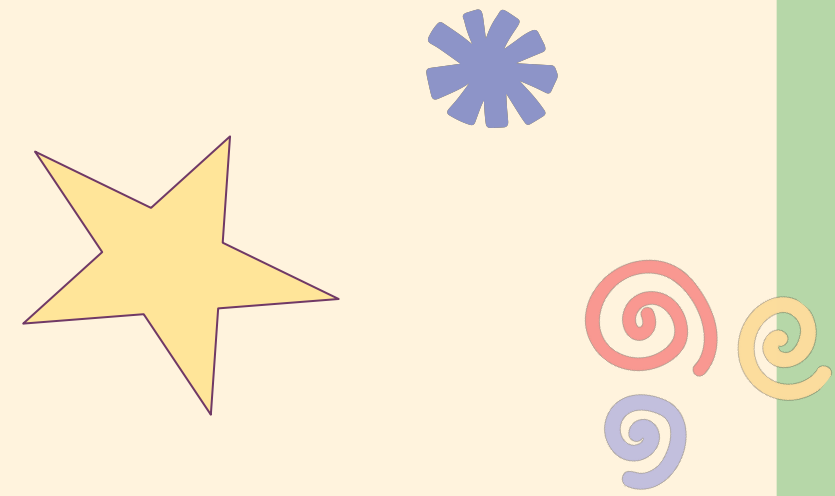

In maths, we explored the numbers 1, 2 and 3. We went on a number hunt, looking for these numbers hidden within larger groups of numbers and circling them when we found them.

In PSED, we learnt about family trees. We talked about the people in our families and had a go at drawing our very own family trees.

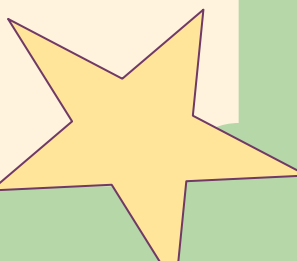

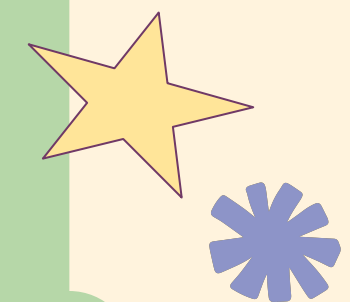

Year 1

This week we began lots of exciting learning.

In English, we found a huge mess left in our middle room which was left by the big bad pig from our new story 'The three little wolves'.

In maths we have explored the history of numbers and went on a number hunt. We were so surprised to find that numbers are everywhere, even on cars!

A blue starburst and a yellow star.

Miss Turner, Mrs Shamim and Mrs Mota were so impressed with our beautiful handwriting and presentation.

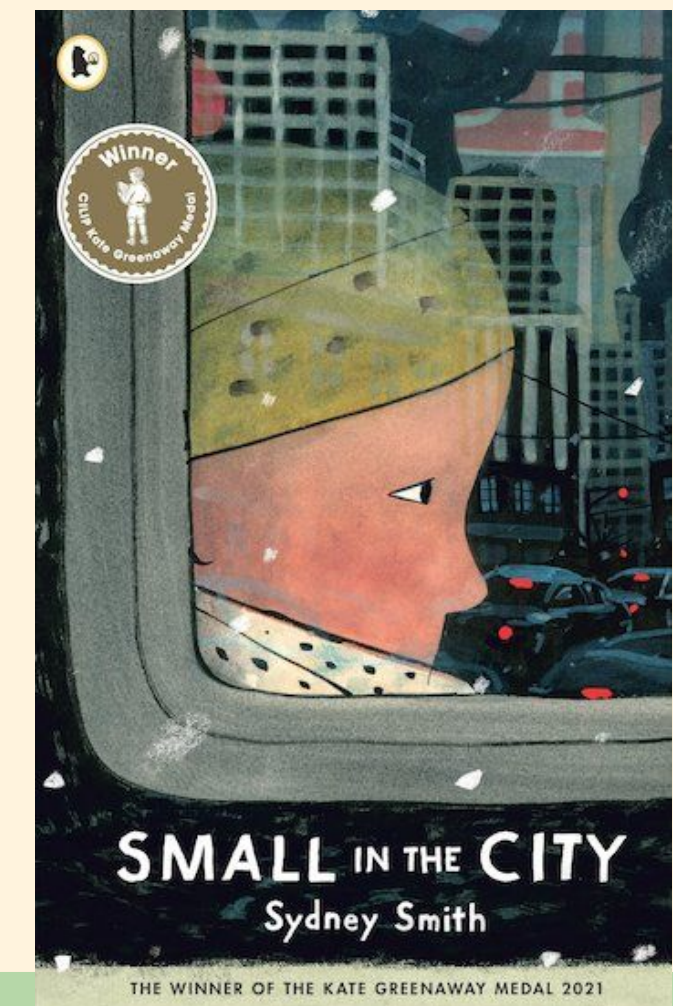

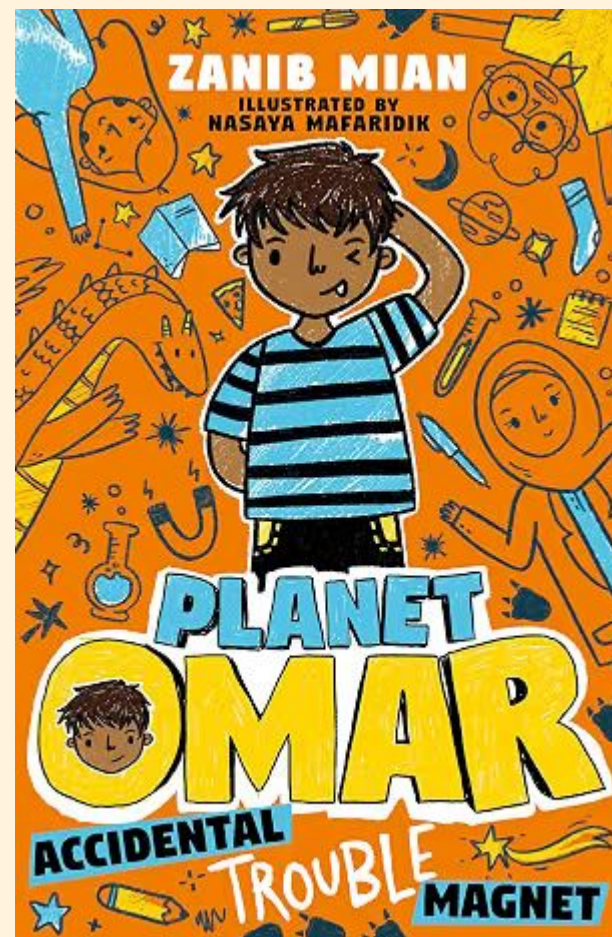

Year 3

Year 3 are settling into their new KS2 routine. We have enjoyed starting our new reading book 'Planet Omar' in reading and 'Small in the City' in writing.

In maths we have looked at how to represent numbers to 100 working really hard on our presentation.

In science we looked at animals that are vertebrates and invertebrates. We looked at the human skeleton and labelled the different joints we have.

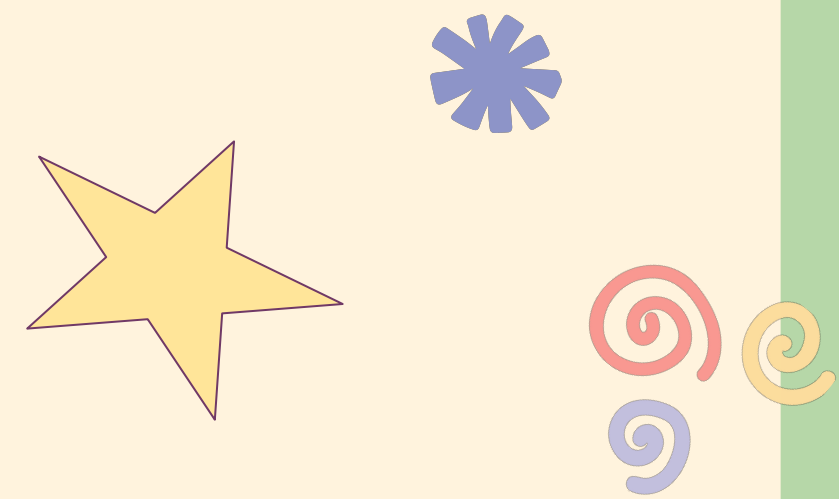

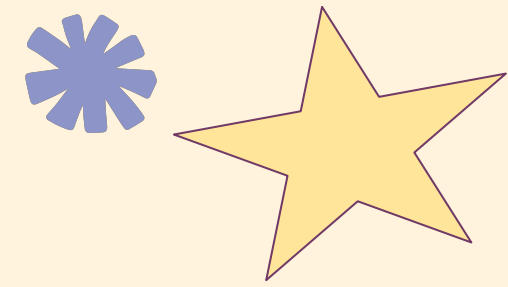

*★Year 4

Year 4 have had a great start to the new school year. We have started reading *I'm Telling You, They're Aliens!* By Jeremy Strong and *The Cafe at the Edge of the Woods* by Mikey Please. In maths we have been exploring number and place value. In science, we explored the digestive system.

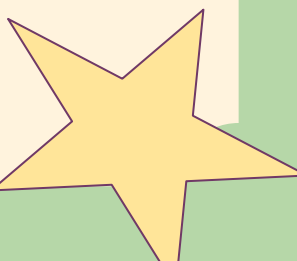

Year 5

In reading, we have started our book *The Great Food Bank Heist* by Onjali Rauf. We have thought about the characters' feelings and made predictions.

In Maths, we have explored the history of numbers and place value.

In history, we have made an enthusiastic start to our Tudor learning. We had some strong opinions when deciding if Henry VIII was a tyrant or fair leader!

*★ Year 6

In reading, we have started reading *The Final Year* by Matt Goodfellow. The story follows a boy called Nate as he experiences the ups and downs of his final year at primary school. Through the book, we will explore themes such as friendship, family, growing up, change and preparing for secondary school.

In maths, we have been learning out numbers to 10,000,000, including how to read and partition them correctly.

Thank You
