Farnham Academy School News

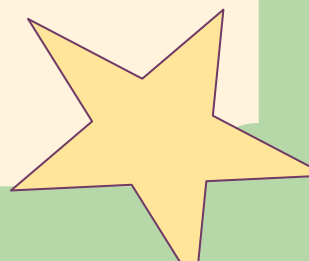

Reception

This week in Literacy, we continued exploring the story- The Three Little Pigs. We focused on the wolf and learned some new words to describe him. We even created our own Wanted posters to help us find him, as he seems to have gone missing!

In Understanding the World, we talked about who lives in our homes and drew our families inside a house template.

In maths, we explored repeating patterns and learned a fun new song to help us remember how they work. We practised identifying and continuing patterns before creating our own unique designs using colourful pens and dot stickers.

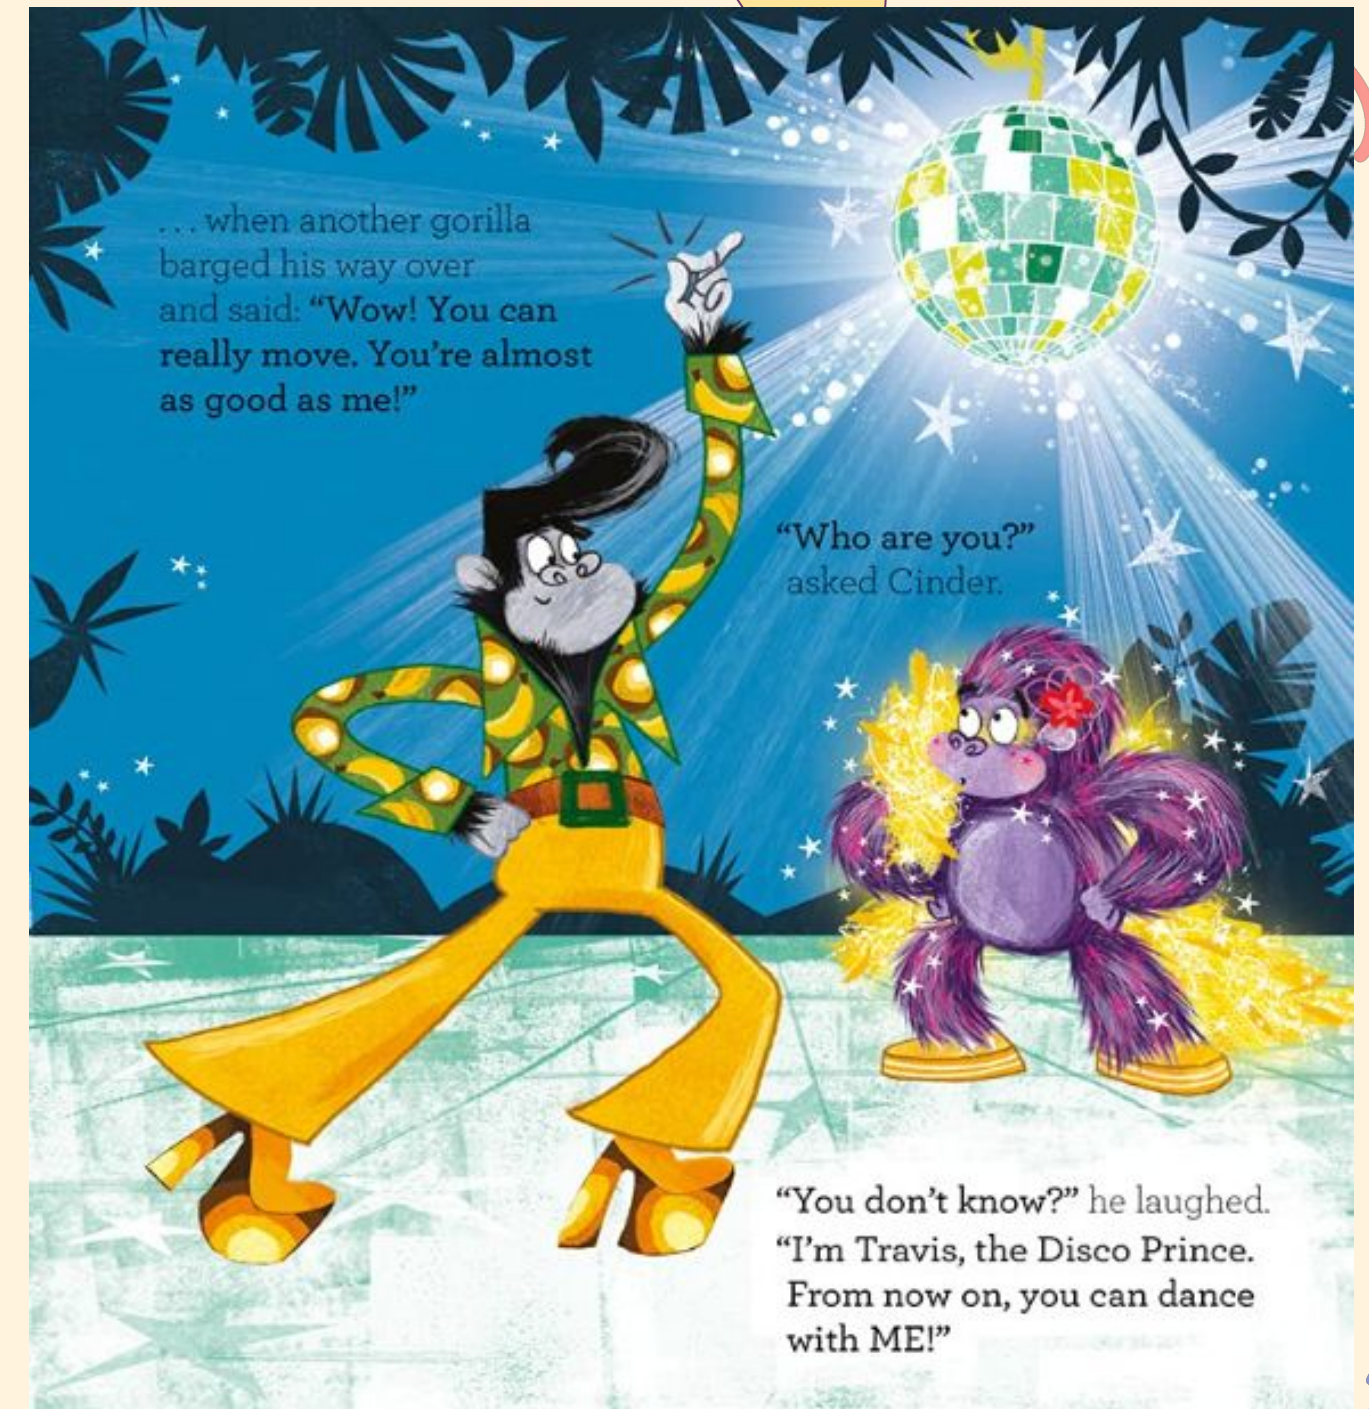

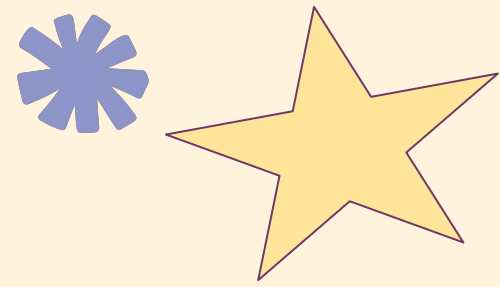

*★Year 1

We have had lots of fun writing invitations this week. DJ Prince invited his friends to a disco ball and we invited our friends (and teachers) to a party.

In maths we are learning numbers bonds to 10 and trying to find all the number bonds in a systematic way.

In science, we have started to look at the temperature outside. We are using a thermometer to measure the temperature.

Year 2

In English, we have been learning the story Jack and the Beanstalk using actions to help us. We then created our own story maps. We will be using these to support us write a simple retell of the story next week.

In maths, we have looked at fact families and related facts. We use manipulatives to help us understand.

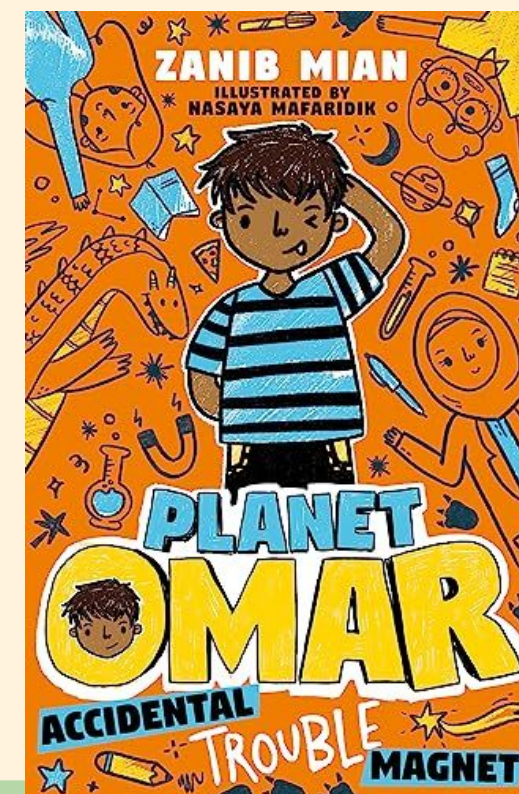

In science, we investigated which fold of paper made the strongest bridge. We noticed that the strongest bridge held the most cubes and the weakest bridge held the least cubes.

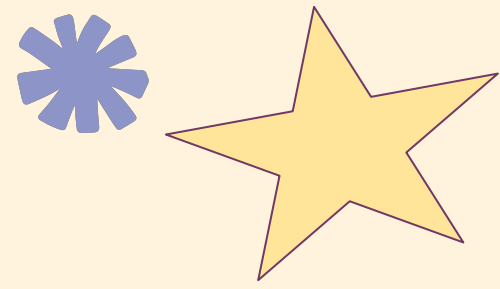

Year 3

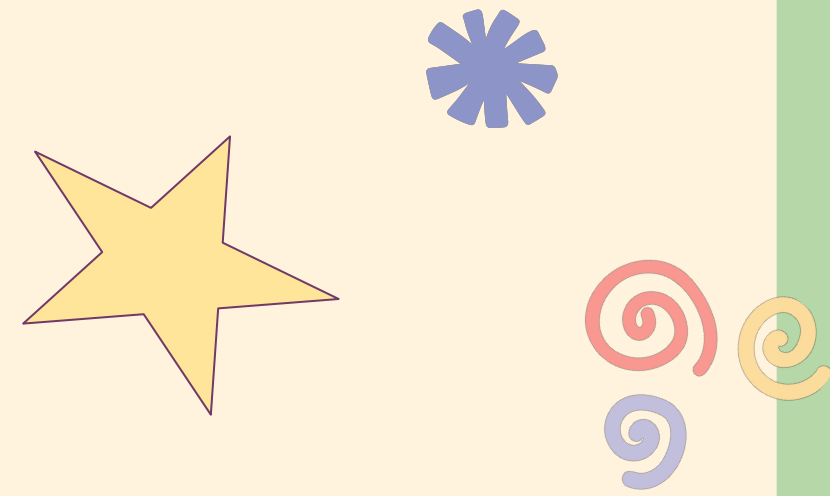

In our reading lessons Year 3 have been excited to start some acting activities interviewing one of our characters 'Daniel' from the story Planet Omar to find out why he is such a bully to Omar!

In history, we have been deciding whether we would prefer to live in the Stone Age or Iron Age.

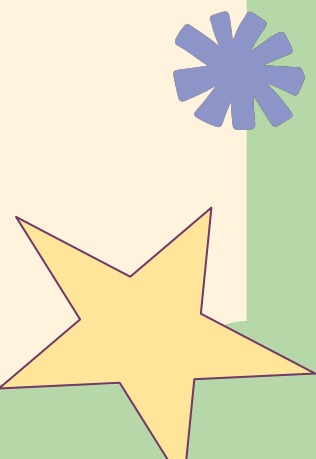

Year 4

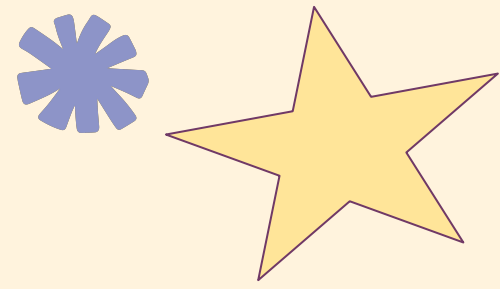

This week, we have enjoyed reading our class novel and hearing all about how Norman tried to capture his alien neighbours!

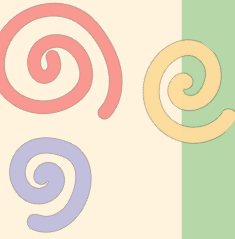

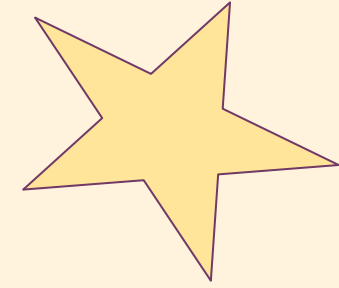

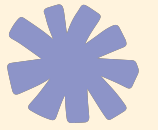

In maths, we have been working on our rounding and have learnt our rounding song with actions to help us with this skill.

In history, we have loved finishing our topic on the Ancient Egyptians by learning all about mummification and the afterlife. Did you know that they used to pull the brain out through the nose?!

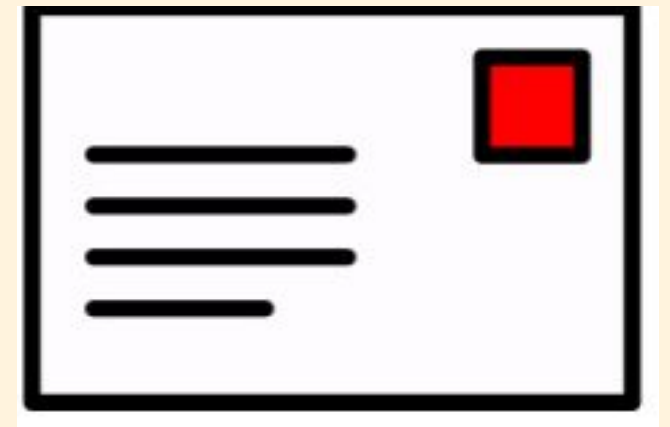

Year 5

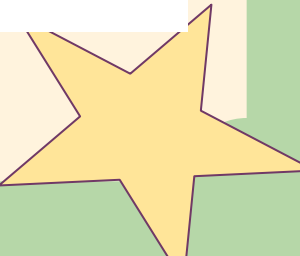

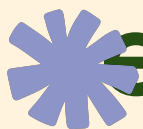

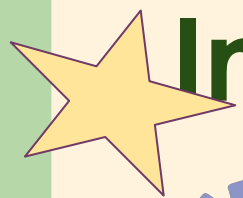

In writing, we have written to Asda to thank them for the kind donation they made to our school food bank.

In maths, we have been learning how to round numbers to the nearest 10, 100 and 1,000.

In history, we have looked at Tudor inventories to explore what it was like to live in those times.

Year 6

In reading, we just discovered a huge plot twist in our book , The Final Year. We have been exploring how characters have responded to this.

In science, we have been comparing our resting and active heart rate through a series of physical activities to find out if there is a pattern.

Thank You
