Farnham Academy School News

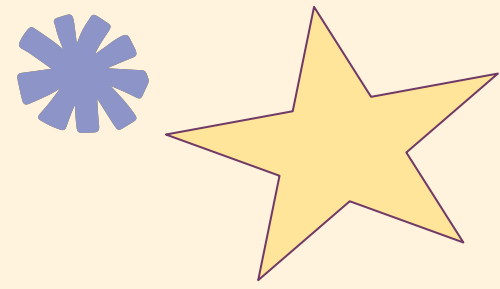

Reception

This week in Literacy, we started a new story: The Three Little Pigs! We arrived one morning to discover a big mess in our classroom, with straw, sticks and bricks scattered all over the floor. We became detectives and worked together to find out what had happened and who was responsible!

In maths, we have been learning about more and fewer. The Three Little Pigs even wrote us a letter asking for our help to work out who had more and fewer building materials. We had lots of fun comparing and counting the different materials.

In Understanding the World, we have been learning all about autumn. We visited our nature garden and searched for autumn treasures, including colourful leaves, conkers and pine cones. We then used the things we collected to create our very own hedgehogs!

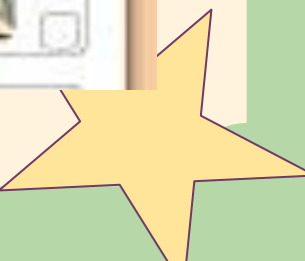

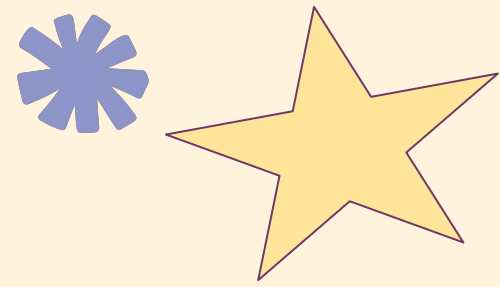

Year 1

This week we had the best time on our school trip to St Ives. We really enjoyed partnering up with Year 6 and looking for signs of Autumn as part of our science learning.

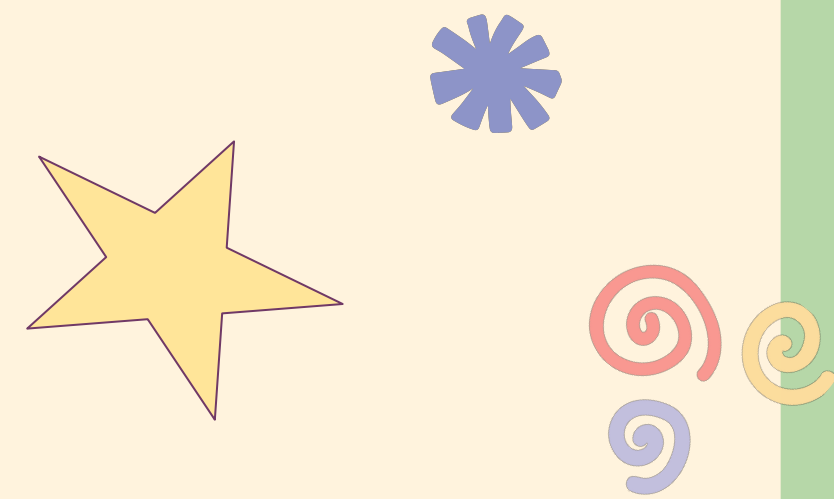

In maths we have learn to represent the addition and equal to symbols.

In DT we have continued to develop our wheels and bases for our pull along toys.

Year 2

In maths, we have recapped our number bonds to 10 and started to look at fact families.

In English, we have been using the conjunction 'and' to join two sentences together. We also have looked at the features of a good character description ready to write our own.

In PSHEE, we considered how the mistakes we make can help us to improve. We learnt some tongue twisters which were super tricky but kept trying! We then focussed on how we can be kind to ourselves and wrote down all our amazing qualities.

In Her Shoes – Tongue Twisters

Peter Piper picked a peck of pickled peppers.

A peck of pickled peppers Peter Piper picked.

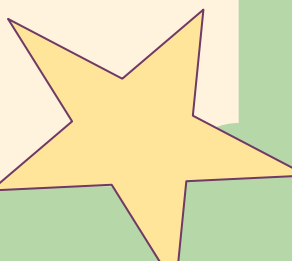

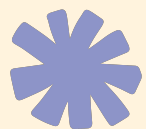

If Peter Piper picked a peck of pickled peppers,

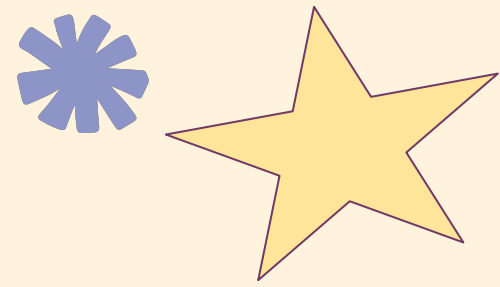

Where's the peck of pickled peppers Peter Piper picked?

How much wood would a woodchuck chuck if a woodchuck could chuck wood?

He would chuck, he would, as much as he could, and chuck as much wood

As a woodchuck would if a woodchuck could chuck wood

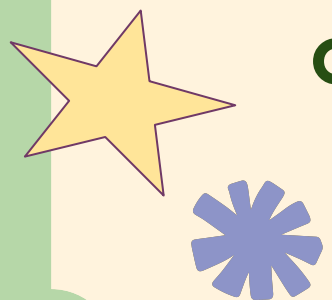

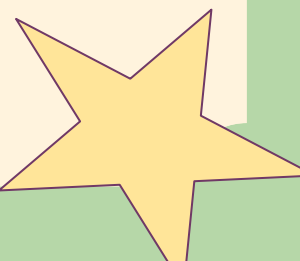

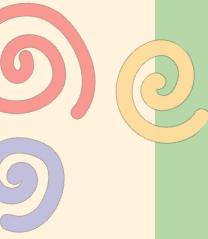

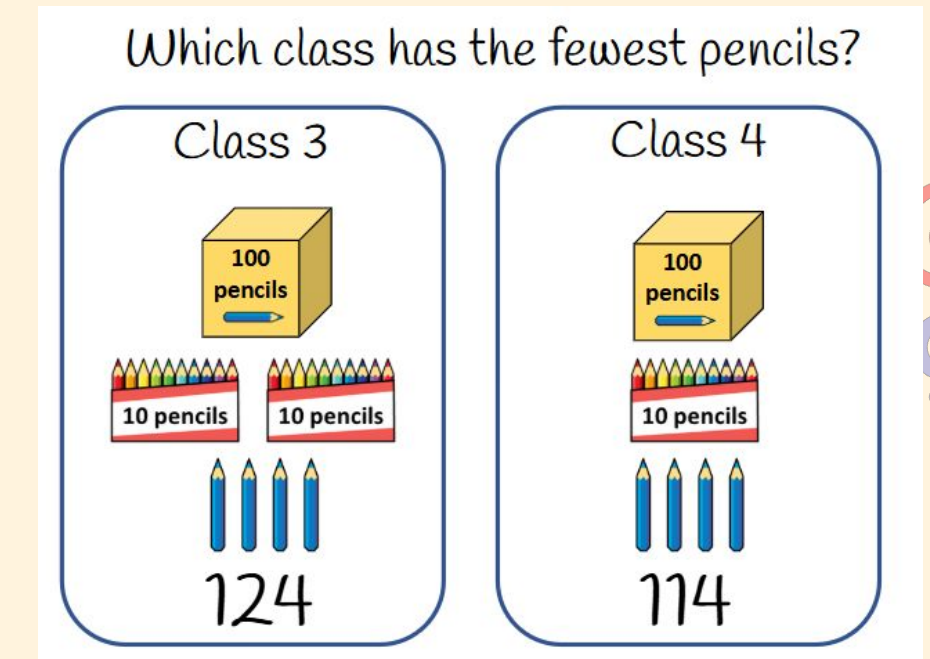

Year 3

In English we have continued looking at verbs. We explored what regular and irregular verbs are and when they should be used.

In maths we have compared numbers with 3 digits and ordered them too. We have also looked at lining up numbers in the correct columns in our place value charts.

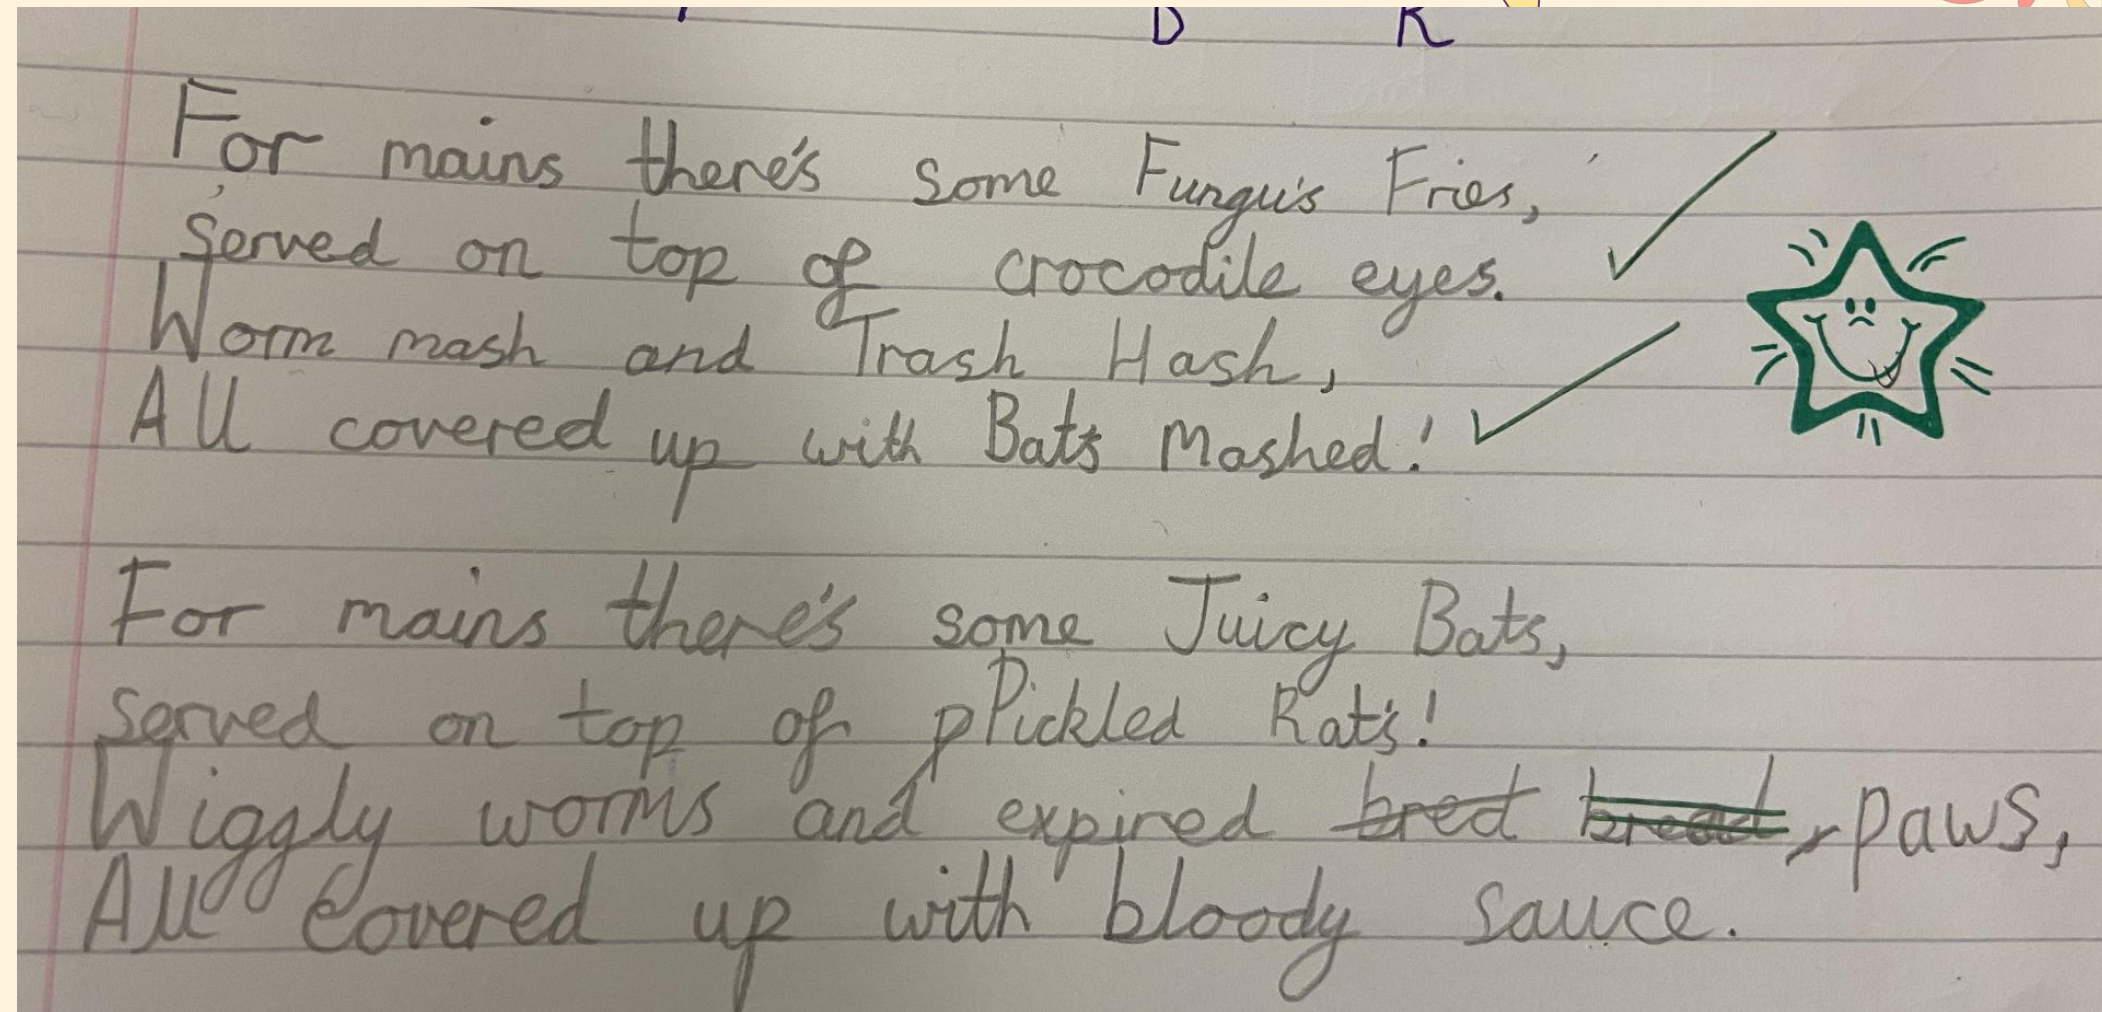

We have enjoyed making textures in art with oatmeal and lentils. We tried to recreate a 'cave texture' to paint on similar to how Stone Age people would have in Prehistoric times.

Year 4

Year 4 have been writing poems in writing lessons. The poems are a menu for an ogre! They have been brilliant at coming up with revolting rhymes!

In maths we are working on estimating and rounding at the moment.

Year 5

In reading, we have got to the exciting part of our story and now know why the food bank is so low on food.

In writing, we have written our explanation texts about the school foodbank. We need to proofread and edit so that we can publish and share them with our audience.

In maths, we have consolidated our knowledge of numbers up to 1,000,000

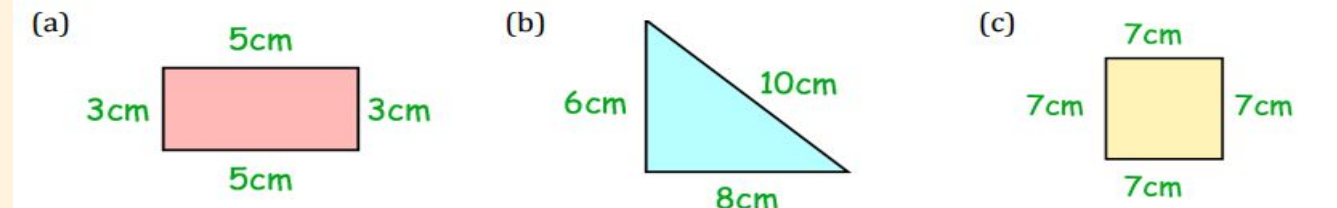

Year 6

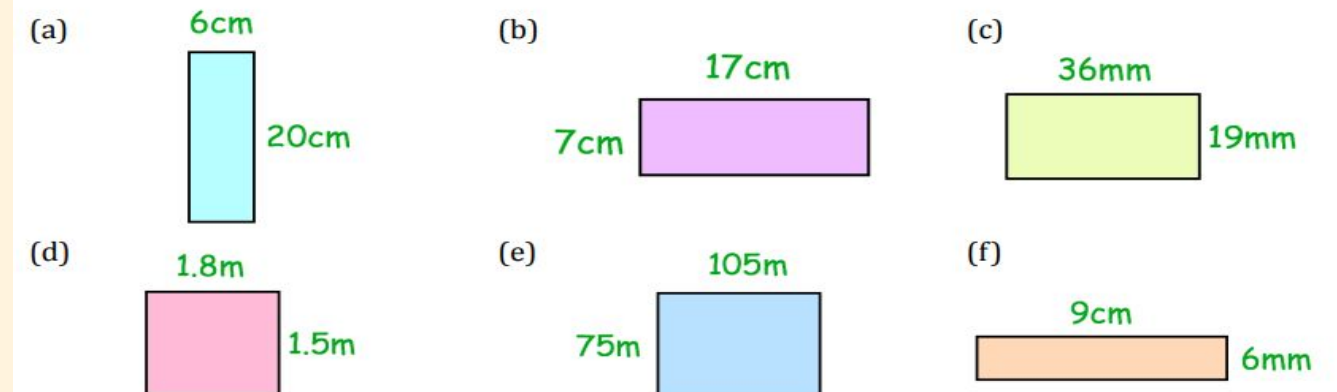

On Monday, we enjoyed our visit to St Ives with Year 1. We took our tally charts to gather data on the animal and human features we observed.

In maths we have been working out the perimeter of shapes and looking at graphs to understand data.

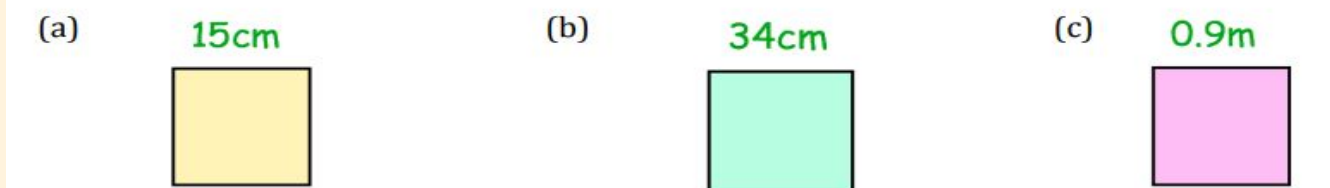

Question 1: Work out the perimeter of each shape below

Question 2: Find the perimeter of each of these rectangles.

Question 3: Work out the perimeter of each of these squares

Thank You
